

Evaluation Services

World leading expertise. High quality research. Expert consultancy. Dedicated evaluation support.

Do you want to get best value for money when investing in new services? Do you know how to release the potential that exists within your organisation? Work with us to create strong, compelling and insightful evidence to prove and improve your service's worth.

Fresh thinking, to help your organisation flourish.

Can you prove the success of your latest initiative?

We specialise in the provision of evaluative research, matching your organisation's need with appropriate academic and evaluation expertise. We can help improve your service delivery, gather evidence of impact in your organisation's developing practice, and communicate your results.

Tailoring evaluation to your individual requirements

Our range of evaluation and consultancy services, available across the public sector and to the private and third sectors, draws on years of expertise that can help your senior decision-makers plan and spend with confidence.

Design. Discover. Disseminate. Develop.

We can help you collect and analyse your own evaluation data or we can offer independent, objective evaluations. We can design your policies with evaluation built-in at every stage to keep you on track and de-risk your decision-making. Through evaluation, we can help you review your strategic direction and help find answers to inform future decision-making.

Who we work with

We have been working with a diverse range of organisations including Government departments, public bodies, local authorities, community voluntary services, and private sector organisations. We help them to understand the impact of their interventions, analyse their spend, demonstrate social impact and prioritise their resources in the future.

Talk to us about how our innovative and expert consultancy in evaluation can add assurance, better governance, and confidence into your organisation.
